1. EXECUTIVE SUMMARY

This document establishes the Compliance Operations Target Operating Model (TOM) for RidgeField Capital Pte. Ltd. ("the Company", UEN 202502519D), a newly incorporated entity in Singapore currently in the process of obtaining its Licensed Fund Management Company ("LFMC") status under the Monetary Authority of Singapore ("MAS").

The Company intends to manage capital markets products exclusively for accredited and/or institutional investors under the Securities and Futures Act 2001 ("SFA"). As an LFMC (A/I), the Company is subject to a base capital requirement of S$250,000 under Regulation 4 of the Securities and Futures (Financial and Margin Requirements for Holders of CMS Licences) Regulations ("SF(FMR)R").

This TOM is structured around a 3-6-9 month implementation roadmap (April 2026 – December 2026) covering the end-to-end journey from incorporation through to full operational readiness. It addresses the regulatory framework, governance structure, compliance infrastructure, risk management, technology architecture, and ongoing obligations as set out in the MAS Compliance Toolkit for LFMCs (last revised 25 February 2026).

1.1 Key Findings

- The Company is in a pre-operational phase with significant foundational infrastructure yet to be established.
- AML/CFT programme is assessed as the highest-risk gap area – MAS Notice SFA 04-N02 obligations are mandatory from day one.
- A comprehensive Compliance Manual has been established, embedding all core policies within a single document structure (18 chapters, 7 appendices, 11 forms) to avoid maintaining policies separately.
- No CRM, PMS, or reporting infrastructure is in place; vendor evaluation has not commenced.
- A part-time Compliance Officer with LFMC experience is the immediate priority hire.
- Resource requirements are lean but critical – indicative annual operational overhead of S$156,600 – S$353,200.

1.2 Future Roadmap

The Company's current focus is on fund management and External Asset Management (EAM). An Exempt Financial Adviser (EFA) licence may be considered as a future roadmap item (within the next 3 years), subject to identifying the right person to lead this portion of the business and/or when the existing fund management and EAM business has stabilised. If the EFA licence is pursued, the

Financial Advisers Act (FAA) obligations would also apply, and this TOM would be updated accordingly.

2. COMPANY PROFILE AND REGULATORY CONTEXT

2.1 Company Details

Company Name	RidgeField Capital Pte. Ltd.
UEN	202502519D
Registered Address	9 Temasek Boulevard, #27-01A Suntec Tower 2, Singapore 038989
Regulatory Status	To be regulated by MAS – LFMC (CMS Licence in Fund Management)
Target Activity	Fund management for accredited / institutional investors; External Asset Management (EAM)
Base Capital Requirement	S$250,000 (Regulation 4, SF(FMR)R)

2.2 Base Capital Requirement

Under Regulation 4 of the Securities and Futures (Financial and Margin Requirements for Holders of CMS Licences) Regulations ("SF(FMR)R"), the Company, as a Licensed Fund Management Company managing funds for accredited and institutional investors only, is subject to a base capital requirement of S$250,000. This capital must be maintained in the form of liquid assets (cash or equivalents) at all times and is computed quarterly for regulatory reporting purposes.

The SF(FMR)R distinguishes between different types of licensed fund managers based on their target client base and asset base. The classification determines specific capital and financial resource requirements. Given RidgeField Capital's focus on accredited and institutional investors, the base capital requirement is the minimum prescribed threshold.

2.3 Risk-Based Capital Requirements

In addition to base capital, the Company must maintain total financial resources equal to at least 120% of its total risk requirement. The total risk requirement is the sum of:

• Counterparty risk – exposure to clients, brokers, and counterparties
• Position risk – market risk exposure across all fund holdings
• Operational risk – operational and compliance risk (minimum 5% of gross income)
• Large exposure risk – aggregate exposure to any single counterparty exceeding 5% of capital

Total financial resources include base capital plus retained earnings, subject to agreed haircuts. This is reported quarterly via Forms 1 and 2 (financial returns) to MAS. Annual audited returns (Forms 1–6) provide verified year-end position.

2.4 Key Legislative and Regulatory References

2.4.1 Primary Legislation

- Securities and Futures Act 2001 (SFA) – Parts IV and V

- Financial Services and Markets Act 2022 (FSMA)

Finance & Administration	Basic accounting setup needed. No budget or expense approval matrix.	MEDIUM	Phase 1
Human Resources	No employment contracts, staff handbook, or training framework.	MEDIUM	Phase 2

4. GOVERNANCE AND ORGANISATIONAL STRUCTURE

4.1 Target Governance Structure

Board of Directors	Ultimate oversight of strategy, risk appetite, and compliance. Meets quarterly minimum. Receives compliance and risk reports.
Principal Officer / CEO	MAS-approved Principal Officer responsible for overall management and regulatory accountability.
Compliance Officer	Part-time initially (2–4 days/month). Designated CO responsible for day-to-day compliance oversight, MAS liaison, and Board reporting. Must meet MAS Fit and Proper criteria.
Investment Team	Licensed representatives responsible for portfolio management. Minimum 2 full-time appointed representatives per regulated activity (Toolkit Item 19).
Operations & Admin	Responsible for onboarding, client servicing, vendor management, finance, and HR. May be combined with CO role initially.
External Advisors	Legal counsel, tax advisors, auditors (MAS-approved), fund administrator, internal auditor, compliance consultants, and corporate secretary.

NOTE: All directors, the CEO, substantial shareholders, and appointed representatives must meet MAS Fit and Proper criteria (Guidelines on Fit and Proper Criteria) – covering honesty/integrity/reputation, competence/capability, and financial soundness.

4.2 Three Lines of Defence

First Line: Investment and operations teams own and manage risk day-to-day through adherence to policies and SOPs.

Second Line: Compliance Officer provides oversight, monitoring, and guidance. Maintains the compliance monitoring programme and reports to Principal Officer and Board.

Third Line: Internal auditor provides independent assurance across all control areas including AML/CFT, operational risk, IT controls, and BCM. External auditors and MAS inspections provide additional independent assurance.

4.3 Representatives

Per MAS Toolkit Item 19, a minimum of 2 full-time appointed representatives are required for each regulated activity (Fund Management). Each representative must:

• Pass the relevant CMFAS examination (Module 6A for Fund Management)
• Complete MAS prescribed training on regulatory framework and conduct
• Be assessed by the Company for suitability and fit/proper criteria
• Be registered on the Central Registry of LFMCs via Form 3A
• Meet ongoing continuing professional development (CPD) requirements (minimum 40 hours/year for fund managers under SFA 04-N22)

A representative's appointment is triggered by Form 3A (Appointment of Representative) and terminated by Form 8 (Cessation of Representative). Form 16 (Declaration of Misconduct) must be submitted to MAS if a representative leaves due to serious misconduct.

PDPA Data Protection Policy	Personal Data Protection Act 2012 – MEDIUM

Note: All policies are embedded within or annexed to the Compliance Manual to ensure a single, cohesive compliance framework. The Compliance Manual will be the single source of truth, avoiding the need to maintain standalone policy documents separately.

5.2 Compliance Monitoring Programme (CMP)

Note: A detailed Compliance Monitoring Programme (CMP) workbook has been developed as a separate deliverable, listing all compliance tasks by frequency (daily, bi-weekly, monthly, quarterly, semi-annually, annually). The CMP will be expanded as the business grows and new regulatory requirements are introduced.

Monthly:

- Review of transactions for AML red flags
- Screening refresh for existing clients against MAS, OFAC, EU SDN, UK and UN sanctions lists
- Review of personal account dealing logs
- Monitoring of base capital adequacy (S$250,000 minimum with buffer)
- Computation of financial resources vs. total risk requirement (120% threshold)

Quarterly:

- Compliance report to Board of Directors
- Review of investor complaints
- Update compliance policies as required
- Staff training assessment
- Preparation and submission of quarterly financial returns (Forms 1 and 2 via MASNET) – due within 14 days of quarter end (Toolkit Item 37)

Semi-Annually:

- Internal compliance review of client onboarding files
- Vendor compliance review for material outsourcing arrangements
- BCP testing and documentation of results

Annually:

- Enterprise-Wide Risk Assessment (ERWA)
- Internal audit (covering AML/CFT, operational controls, IT controls, and regulatory compliance)
- IT Audit and Vulnerability Assessment and Penetration Testing (VAPT)
- Audited financial returns and auditor's report (Forms 1–6 via MASNET) – due within 5 months of FY end (Toolkit Item 38, Section 107 SFA)
- Declaration of No Misconduct via MAS-Tx – due within 14 days of calendar year end (Toolkit Item 40)
- Cross-border arrangements annual declaration (Form FR via MAS-Tx) – due within 5 months of FY end (Toolkit Item 41, if applicable)
- Annual compliance certification to Board; full policy review cycle

Every 3 Years:

- BCM Audit (per MAS BCM Guidelines June 2022)

5.3 MAS Regulatory Reporting Calendar

Fund Data Submission (Form 6D) – if managing specified CIS	Quarterly	As per MAS-specified deadlines	SFA 04-N23 (if applicable)
MASNET Compliance Filings	Per schedule	Per MAS Compliance Toolkit	Various

Note at bottom: If the Company obtains an Exempt Financial Adviser (EFA) licence in future, additional reporting obligations may arise including Form CHR. MAS also issues ad hoc surveys and reports throughout the year which will be responded to as received.

5.4 MAS Submission Platforms

MAS submissions are made via two primary platforms:

MASNET (https://www.masnet.sg/) – Secure portal for submission of regulatory forms, financial returns, and fund data. All forms (1–6, 3A, 8, 11, 16, etc.) are submitted through MASNET. Access credentials are provided upon licence approval.

MAS-Tx (https://www.mas.gov.sg/) – Platform for annual declarations and specific regulatory notifications (Declaration of No Misconduct, cross-border arrangements declarations, etc.).

Contact Centre – For ad hoc MAS enquiries and requests. MAS Compliance Toolkit provides detailed contact procedures.

6. PHASE 1: MONTHS 1-3 (APRIL – JUNE 2026)

6.1 Regulatory and Compliance Foundations

- Inject initial paid-up capital of S$250,000 and open corporate bank account
